

Partner Engagement Manager, *EMEA*.

I'm Jimi Visser, Growth Lead at WPP Production in Amsterdam. In four months I've grown the Netherlands operation from 2 to 20 people, and I'm building the playbook and the partnerships that connect it to WPP Production across Europe.

AGAINST THE BRIEF

What you asked for, *and where I've done it.*

YOU ASKED: MANAGE DAY TO DAY RELATIONSHIPS WITH PARTNER STAKEHOLDERS, STAYING ALIGNED ON JOINT ROADMAPS

Partnerships across WPP Europe

I'm building the working relationships and joint roadmaps between the Netherlands and WPP Production offices across Europe, so work flows between markets instead of being rebuilt in each.

YOU ASKED: OWN PARTNER ROADMAPS AND COMMUNICATE PROGRESS TO STAKEHOLDERS

From 2 to 20 in four months

Grew the Netherlands operation from two people to twenty, reporting weekly to a CEO in Copenhagen against one roadmap every WPP agency in NL could plan on.

YOU ASKED: CAPTURE BEST PRACTICES AND SCALE THEM ACROSS REGIONS

The playbook is the product

Building the NL growth playbook as the single source of truth for how WPP Production lands in a market, written to be lifted into the next one. Earlier: the AkzoNobel European brand playbooks.

YOU ASKED: COLLABORATE WITH GLOBALLY DISTRIBUTED CROSS FUNCTIONAL TEAMS

At home in the matrix

Six years as the person in the middle: Korean client, APAC hub and Amsterdam on Bibigo; 18 markets on one JDE Peet's platform; now NL inside a European network.

YOU ASKED: DESIGN ACQUISITION USER JOURNEYS USING CONSUMER INSIGHT AND DATA

I build products, not just campaigns

Founded Studio 1104 and built a location based social app myself. Onboarding, retention and drop off as an operator, not an observer.

YOU ASKED: UNDERSTANDING OF CONTENT AGGREGATION AND ADVERTISING TECHNOLOGIES

Advertising is where I come from

Fifteen plus brands produced, NIMA B certified, and fluent in the ads and bundling side of the business.

STRAIGHT TALK

Two gaps, said early. I do not speak business French; Dutch and English are native level and I would start lessons the week I sign. And I have not shipped a carrier billing or wallet integration, though I have sat between a global centre, a regional hub and a local market on agreements where money, timeline and technology all had to line up. The domain is new. The shape of the work is not.
