# Sr. Account Manager, *Benelux.*

I'm **Jimi Visser**, Growth Lead at **WPP Production** in Amsterdam. You're bringing the ads plan to the Netherlands and Belgium in 2027. I've just built a market operation here from scratch: **2 to 20 people in four months**, serving every WPP agency in the country, with the playbook, the templates and the weekly pipeline call that keep it running. Video advertising is the only product I have ever scoped, sold and shipped.

AGAINST THE BRIEF

## What you asked for, *and where I've done it.*

YOU ASKED: TEAM MEMBERS WHO WILL SHAPE A QUICKLY EVOLVING BUSINESS, WITH THE ADS PLAN LAUNCHING IN THE NETHERLANDS AND BELGIUM IN 2027

### I've just launched a market

Set up WPP Production in the Netherlands from two desks: operating model, first clients, 18 hires and the connections to offices across Europe. **A launch year is where I do my best work**, and the advertisers most likely to buy your first Benelux campaigns are brands I already produce for.

YOU ASKED: MANAGE TOP AND STRATEGIC ACCOUNTS IN PARTNERSHIP WITH SALES AND DRIVE REVENUE GROWTH

### Accounts are how I grew the business

Own the commercial relationship across **Heineken, Grolsch, Andrélon, Prodent, ALDI Nord, Bolton and AkzoNobel** at WPP Production; account lead for **Ford, Unilever and CJ Bibigo** at Ogilvy. Growth came from inside the accounts, through upsell and retention, not from chasing volume.

YOU ASKED: LEAD TRAINING MATERIALS, BUILD TEMPLATES AND TRAIN THE ACCOUNT MANAGERS WHO JOIN YOUR TEAM

### Onboarded 18 people in four months

Wrote the **NL growth playbook**, the single source of truth for numbers, workflow and team model. Built the template suite the team scopes and briefs with. Onboarded every hire from two to twenty. New AMs are the same job with a different product.

YOU ASKED: HOST WEEKLY PIPELINE AND PACING MEETINGS, AND BE THE FIRST POINT OF ESCALATION FOR YOUR TEAM

### The weekly pipeline call is already in my calendar

Weekly pipeline and forecast reporting to a CEO in Copenhagen, against a tracker I built. As one of the two people running the Netherlands operation, I'm where the team's escalations land **before they reach him**, and most of them never do.

YOU ASKED: CONTRIBUTE TO RFP RESPONSES ON PACKAGING, PRICING AND TARGETING, AND PARTNER WITH CROSS FUNCTIONAL TEAMS ON CUSTOM CREATIVE ASSETS

### Custom creative is home turf

Six years writing and answering RFPs, scopes and rate cards inside Ogilvy and WPP. And when an advertiser needs a bespoke asset for your inventory, **I can scope, produce and deliver it** rather than route the request. Kick offs, specs, approvals and media deadlines are the day job.

YOU ASKED: OVERSEE DELIVERY PERFORMANCE, OPTIMISE WITH CLIENTS, DELIVER WRAP REPORTS AND CONTRIBUTE TO MONTHLY BILLING AND INVOICING

### From kick off to invoice

Results clients remember: **Loods 5, 30% sales uplift and 2.8M reach**; JDE Peet's, one platform across 18 markets. Behind them, the unglamorous part done properly: post campaign reporting, monthly invoicing with finance and the net revenue line I'm measured on.

STRAIGHT TALK

**Three gaps, said early.** I have not sat on the publisher side of an OMS or ad server; my systems have been agency and production stacks, and I pick up tooling fast enough to build my own agents and apps with AI. Programmatic Guaranteed, PMPs and the verification vendors I know as the agency reading the post campaign report, not as the operator behind it. And my French is beginner level; Dutch and English are native, and I would start lessons the week I sign. What I bring is the half of a launch that usually breaks: the assets, the approvals, the deadlines and the client who wants a straight answer. The platform is new to me. The advertisers are not.
