

Selected *work.*

Video advertising I have account managed, produced or line produced over the last six years, for brands and agencies that buy in the Benelux. I have been on all three sides of the table this role sits between: **the account lead who sold the campaign, the producer who shot it, and the growth lead who scoped and invoiced it.** Every link opens the film or the case. The full portfolio, with players, is at jimivisser.github.io.
